We've all seen illustrations like this before, but what makes this DOABLE is the FOCUS on the first 3 weeks.

These projections are based only on binary commissions and do not include matches, retail profits, or autoships.

This example is based on "perfect" duplication, and we all know this is not a perfect world and that things come up in people's lives and they won't all duplicate. However, imagine the potential if only 10% duplication took place. That's an income of over \$2000 per week in just 12 weeks!

Build with a SENSE OF URGENCY NOW and be richly rewarded for the REST OF YOUR LIFE!!!
