

Natural Bee Tablets

A gift from the Bees for your extreme health.

" A gift from the Bees for your extreme health" contains every known ingredient necessary to sustain life. *120 HIGH POTENCY* tablets, 2 months supply

Why Bee products?

The Bee Hive is a storeroom of goodies for great health. Bee Pollen, Bee Propolis, Royal Jelly and Raw Honey have, for thousands of years, been credited with giving longer life, younger appearance and zest for life!!

These four natural ingredients in Bee Natural Tabs have many, many documented healthful benefits. Our product is all natural, contains no additives or preservatives, and has no fat. Each Tab contains Bee Pollen 550 mg and Royal Jelly 60 mg in a base of Honey and Propolis 610 mg.

Bee Natural Tabs are processed without heat, and contain every known ingredient necessary for a balanced diet.

An important factor in the retention of nutrient value in Bee Natural Tabs is that the product is processed completely without heat so that the nutrients and living enzymes are left intact. Heat processing destroys the nutrients and kills the spores. No laboratory process can replicate the life forces found in these natural products.

The amounts of the four items in Bee Natural Tabs are fixed, but the exact quantity of each nutrient varies from one batch to another, just as the amount of vitamin C varies from one orange to another.

The Incredible Ingredients

The combined effects of Bee Pollen, Bee Propolis, Royal Jelly, and Raw Honey appear to be greater than the sum of the individual effects. These products work best together.

BEE POLLEN - A critical factor in the quality of Bee Pollen is that it must come from multiple sources. Multiple sourcing is necessary to assure that all nutrients are present. Only the best, freshest, multi-source pollen is used in Bee Natural Tabs to give them the cross-pollination benefit.

- Strengthens circulatory system and retards hardening of arteries
- Improves alertness, concentration and memory
- Aids digestion , reduces stress and increases stamina

- Along with a sensible diet Bee Pollen can be considered a valuable weight loss food and acts as an appetite suppressant

BEE PROPOLIS - The Propolis in Bee Natural Tabs is of the best quality and purity. The unique heat-free process of combining Bee Pollen, Bee Propolis, Royal Jelly, and Raw Honey assures the full potency and life forces contained in the hive are still present in the final product.

- One of the most powerful antibiotics discovered and found in nature
- Supports and strengthens the immune system
- Research shows that it has antiseptic, antifungal, antibacterial and antiviral properties

ROYAL JELLY - Deteriorates and loses its biological activity quickly. The Royal Jelly fed to the queen bee is never more than 24 hours old. Tests comparing 24-hour old jelly to 48-hour old jelly showed that the fresher batch was four times more biologically active. Freeze-drying is the key to providing the potency found in Bee Natural Tabs.

- Produces a strong burst of energy and a feeling of well being
- It stimulates the circulatory system, speeds up the metabolism and helps the body fight infection
- Studies show the Royal Jelly exhibits cancer fighting properties, is effective in relieving arthritis, lowering bad cholesterol, easing symptoms of Parkinson's disease and appears to be powerful in countering the aging process

RAW HONEY - The best honey is raw and unfiltered. Like pollen, it should come from multiple sources to assure nutritional balance. The honey in Bee Natural Tabs is of the best quality and is freeze-dried in its natural state to preserve the potency of its vitamins, minerals, and enzymes...

- Improves chronic bronchitis, bronchial asthma, sinus and allergies
- Combats depression, fatigue, insomnia, nervous disorders, urine retention, headaches and blood pressure
- Hastens the healing of wounds
- Has laxative, sedative, antitoxic and antiseptic effects

Suggested caution: If there is any doubt about your sensitivity or allergic reaction to honeybee pollen consult your health care professional prior to taking. Pregnant or lactating woman should not use this supplement.

Note: **Honey Bee Pollen** does not "Cure" anything. Your body heals itself with proper nutrition. Recommended use of this product is as a **dietary supplement**. This product is not intended to diagnose, treat, cure, or prevent any disease.
