- ◆ Moisturizes 24-hours a day – long after others leave skin feeling dry.
- ◆ Delightful light citrus scent
- ◆ Safe for all skin types and all ages – even babies and nursing mothers

This body butter is a 4-in-1 product that will deliver optimal moisture to your hands, your feet, all over your body and you can even use it to texturize your hair. For all-over body moisture, take a small amount on your fingers and apply to the areas that require moisture. Less is more, so apply sparingly if you are just beginning to use this body butter. If you wish to use the butter as a hair texturizer, apply just a small amount of the butter in the palm of your hands, rub them together to spread the butter evenly across the entire palm and then scrunch it into your hair. This is best applied as the final step for your hair – it will create a moderate finish to your hair as it adds a layer of moisture.

As we age, our skin is affected by moisture loss from sun, environmental pollutants, chemical toxins and stress that break down the collagen needed to maintain smooth, supple, moist skin. **Essanté Organics Citrus Body Butter** penetrates to the deepest layers, delivering essential moisture and critical nutrition to repair the damage. One of the few organic butters available anywhere!

Free from harmful chemicals

No animal testing

Contains certified organic ingredients
