- ◆ Cleanses, moisturizes, detangles as it volumizes hair, leaving it clean/shiny with more body
- ◆ Effective and safe for all hair types. Light, mango scent refreshes as shampoo cleanses hair

Description

Everyday abuse of hair due to coloring, curling, ironing or perms can create damage to the hair follicle. Not only do these treatments drying, but the hair follicle itself can be blocked, creating additional problems such as hair thinning or loss. Mango Berry Shampoo Concentrate can help unblock clogged hair follicles, moisturize the hair, keep scalp free of bacteria and fungal problems. For those with dry hair, the addition of nutritional ingredients can help unblock sebaceous glands, encouraging the flow of the body's own moisturizing oils, while clearing away unsightly dead skin cells. For oily skin, this shampoo concentrate can help cleanse scalp of bacterial and fungal irritations; help disperse dead skin cells without additional oil secretion. This moisturizing shampoo concentrate makes an excellent treatment when dealing with dandruff. Medical professionals list infection, poor diet, blood circulation, inadequate nerve stimulation as some of the causes of dandruff. Yeast that lives on the scalp - *Pityrosporum ovale* - and a fungus - *trichophyton* spp - also contribute to dandruff. While there are many anti-fungal and bacterial soaps/shampoos on the market, this shampoo offers a natural alternative.

For Best Results: Just a tiny amount will do. Place an amount the size of a dime on the palm of your hand, massage into wet hair and scalp. Rinse thoroughly. Can be utilized as treatment for scalp conditions such as dandruff/seborrhea, eczema, psoriasis. Allow to stand for several minutes and rinse thoroughly.

Ingredients

Organic Herbal Extracts* Infused in Water & Enhanced NaPCA: [Epilobium Augustifolium (Canadian Willowherb Flowering Grass), Camellia Sinensis (Green Tea Leaf), Hibiscus Sabdariffa (Hibiscus Flower), Myrciaria Dubia (Camu Camu Amazon Fruit)]*, Dextrose, Sodium Cocoyl Glutamate (vegetable derived), Decyl Glucose (Raw Sugar), [Maltodextrin & Guar Hydroxypropyltrimonium Chloride & Sodium Hyaluronate & Panthenol & Hydrolyzed Vegetable Protein & Humulus lupulus (Hops) Extract & Matricaria recutita (Chamomile) Flower Extract & Equisetum arvense (Horsetail) Extract & Citric Acid],* Cocodimonium Hydroxypropyl Hydrolyzed Wheat Protein, Panthenol (Vitamin B-5), Tocopheryl Acetate (Vitamin E), Vegetable Glycerin, Castor Isostearate Succinate*, Xanthan Gum, Sodium Glucose & Lactoperoxidase & Glucose Oxidase (Natural Preservatives), Citric Acid, Essential Oils: [Vanilla planifolia (Vanilla) Bean Oil & Cocos nucifera (Coconut) Oil, Citrus bergamia (Bergamot)]

*Certified Organic or Wild Crafted

Ingredient Highlights

◆ **Bergamot (*Citrus bergamia*) Essential Oil**

Excellent to calm skin disorders and regulate the nervous system. Antibacterial, anti-infectious, antispasmodic. Releases tension, irritability, frustration. Sweet, fruity, fresh

and citrus fragrance oil has a relaxing yet uplifting effect. Harmonizes the free and even flow of vital energy throughout the body/mind.

◆ ***Castor Isosterate Succinate***

An organic emollient 100% active completely derived from natural ingredients. Substantially increases luster, shine and smoother hair shaft.

◆ ***Coconut (Cocos nucifera) Oil***

Coconut Oil plays a major role in the health of Pacific Island nations as well as some on the Asian countries. Considered a wonder product, some people refer to it as “The Tree of Life” as all parts of the coconut are utilized and all carry important health benefits.

Some of these include but are not limited to the following:

- ◆ Kills a variety of viruses
- ◆ Supports tissue healing and repair
- ◆ Anti-inflammatory
- ◆ Improves utilization of essential fatty acids and protects them from oxidation
- ◆ Reduces symptoms associated the psoriasis, eczema, and dermatitis
- ◆ Supports the natural chemical balance of the skin
- ◆ Softens skin and helps relieve dryness and flaking
- ◆ Does not deplete the body's antioxidant reserves like other oils
- ◆ Prevents wrinkles, sagging skin, and age spots.
- ◆ Promotes healthy looking hair and complexion.
- ◆ Provides protection form damaging effects of ultraviolet radiation form the sun.
- ◆ Helps control dandruff

Approximately 50% of the fatty acids in coconut fat are lauric acid. Lauric acid is a medium chain fatty acid, which has the additional beneficial function of being formed into monolaurin in the human body. Monolaurin is the antiviral, antibacterial, and antiprotozoal monoglyceride used by the human or animal to destroy lipid-coated viruses such as HIV, herpes, cytomegalovirus, influenza, various pathogenic bacteria, including listeria monocytogenes and helicobacter pylori, and protozoa such as giardia lamblia. Some studies have also shown some antimicrobial effects of the free lauric acid.

◆ ***Maltodextrin & Guar Hydroxypropyltrimonium Chloride & Sodium Hyaluronate & Panthenol & Hydrolized Vegetable Protein & Humulus lupulus (Hops) Extract & Matricaria recutita (Chamomile) Flower Extract & Equisetum arvense (Horsetail) Extract & Citric Acid***

A unique powder with intensive moisturizing and conditioning abilities. The natural vegetable based cationic guar gum is highly substantive without build up, anionic compatible and water soluble. Low molecular weight hyaluronic acid penetrates quickly to the deepest layers of the epidermis to hydrate and bind water. Moisture retention and balance are enhanced through the addition of hydrolyzed vegetable protein, creating a protective film for skin and hair. Panthenol is known for its moisturizing, humectant and emollient properties. The extracts of Horsetail and Hops deliver an important source of silica, help retain moisture, add shine, strengthen connective tissue while simultaneously soothing and cleansing hair and skin. Hair is brightened while skin is softened with the gentle effectiveness of Chamomile Flower Extract.

◆ ***Rice Amino Acids***

These amino acids show excellent ability to penetrate hair and skin. It allows each molecule to carry its tremendous moisture binding ability into the hair and skin, increasing hydration and moisture content. The benefit is that increased moisture

content in hair results in increased flexibility and tensile strength of the hair fiber – resulting in Improved shine, manageability, and body. In addition, its anti-irritant properties make this a basic building block for skin/scalp treatment products.
