

“Get started today” with Essanté’s Organic Earth Greens and Supreme pH!

You will be very pleased with everything about these products,  
the quality, integrity, taste, and price!

*Organic products from Essanté’ have “enhanced” our perspective  
about alkalizing! ORGANICALLY! INSIDE AND OUT! (See Acid Test Below)*

*Essanté takes alkalizing to a whole new level, and  
there is no doubt in my mind that.....*

## **Essanté’s WorldWide Challenges** **Every Other Greens to Step Up! And here’s why:**

“Fewer Ingredients \*, More Foundational Nutrition, Organically”

“Pay Less, More Product and More Nutrition, Organically”

“STRONG Negative Ionic Charge! PLUS, Clean, Fresh Taste, Organically”

Each container contains 200 grams

Supplement Facts	
Serving Size: 2 grams	Servings per container: 100
Amount per Serving	% Daily Value
Proprietary Blend	2 grams **
Containing: Organic Barley Grass, Organic Alfalfa Leaf, Organic Wheat Grass, Organic Spinach, Organic Aloe Vera 200:1, Organic Kamut Grass, Organic Parsley Leaf, Organic Lemon Grass, Organic Kale, Organic Spearmint Leaf, Organic Broccoli, Organic Cabbage, Organic Peppermint Leaf, Organic Celery, and Organic Dandelion Root.	

\*\* Daily Value not established

Suggested use: As a dietary supplement, three (3) or four (4) servings daily or as directed.

*Essanté Earth Greens (powder & capsules) offers you more total whole food nutrition, certified organic, with an extremely high negative ionic charge.*

**Our body is comprised of negative ions (alkalinity) and positive ions (acidity),  
the more negative ions we can muster, the more opportunity  
for pH Balance and an alkaline reserve!**

*\* Fewer Ingredients – Why? The Essanté’s focus is on dense organic nutrition. A good example, let’s review 3 green vegetables, kale, spinach, and iceberg lettuce. We all know that **kale and spinach are nutritional workhorses, and the iceberg lettuce doesn’t even come close nutritionally.** When formulating Earth Greens, the Essanté’s difference is not only “organic”, but also “**high density nutrition**”, no green fillers!*

*When taking a supplement there should not be any trace of pesticides or agricultural chemicals, and to insure it, every ingredient must be certified organic, i.e., vegetation, sprouts, grasses, etc.*

**Why not select our foundational supplements (the difference between what we eat and what our body requires) the way we shop-organically?**

## **Supreme pH is so very much more than a “Supreme” pH / Alkalizing Catalyst!**

*Ingredients as explained by Dorland's Medical Dictionary for Health Consumers.*

*© 2007 by Saunders, an imprint of Elsevier, Inc. All rights reserved.*

### **Supreme pH Concentrate (Over 2 oz)**

- **Potassium hydroxide:** an alkalizer used in pharmaceutical preparations.
- **Potassium bicarbonate/Potassium electrolyte:** action: needed for adequate transmission of nerve impulses and cardiac contraction, renal function, intracellular ion maintenance;
- **Sodium bicarbonate:** the monosodium salt of carbonic acid, used as a gastric and systemic antacid to alkalize

**“Less is More, and Our Body can Utilize components of Supreme pH, continue to balance our electrolytes - Without running risk of mineral leaching (leg cramps)”**

**PLUS: “40% less drops than leading pH catalyst are needed to accomplish so much more”**

Potassium carries a 14 pH, the highest of minerals, Potassium is the chief cation of intracellular fluid, and many of its salts are used as electrolyte replenishers!

### **Testimonies as told to me.....**

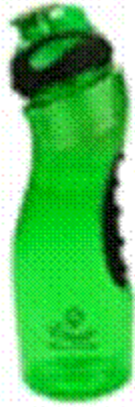

- I can use less of these greens and feel great – they are so charged, so strong, and I always feel great on them. (Judy A.)
- We use the greens as food supplement; really, we add it to our cold foods and salads, dressings, plus to our water with the pH drops...fantastic! (Nicki G.)
- I've got to say, I love the pH drops, and we really feel good on them...no chlorine smell, so compatible with the greens, minerals to minerals and vitamins, perfect! (Paul G.)
- I love the fact it's all organic, I buy my vegetables organically, and why would I pay \$50 for a greens supplement to my vegetables if it weren't organic? Gosh, thank you Essanté for the best! (Roger J.)
- They (the greens) are jumping out of the jar at me, I'm holding the scoop 3 feet away and they are still jumping – holy cow! (Michelle S.)

**ACID TEST: We are ALL beyond “good” products; we require EXCEPTIONAL products at a more than reasonable cost!**

***“Would you buy this product? Do you feel confident with the integrity of the ingredients, as well as pleased with the cost”?***

**If the answer is “absolutely, I'd even pay more”, then you have a great product, and a great company, and very special products!**

***If the answer is no to any of the above, then you don't!  
ESSANTE WorldWide PASSES WITH FLYING COLORS!  
You can become a wholesale distributor with Essanté or  
simply buy wholesale for yourself or your retail market, it's up to you!***

**Wholesale Cost:**

**Greens:** Full ½ lb (200 grams) \$50 wholesale;

*100, 2 gram servings*

270 capsules (1/3 more), \$55.80 wholesale;

*90, 3 capsule servings*

**Supreme pH:** Over 2 oz concentrate (60 ml) \$38.50;

*100, 12 drop servings*
